NO MORTAR, NO MESS

Prefinished panels eliminate the need for messy mortar or costly masonry-skilled labor, while still providing a textured finish and enduring design aesthetic.

The beauty of solid stone at a fraction of the price.

The Masonry Series makes grandeur attainable for virtually any building. With its subtle color and deep texture, Sandstone imparts a traditional aesthetic. Covering approximately nine square feet per panel, installation takes a fraction of the time required by masonry contractors. Plus, with three color options, you have even more possibilities for customization.
